

TobyCoin Whitepaper

Welcome to the TobyCoin Whitepaper, where joy meets the blockchain. TobyCoin is a decentralized BEP-20 token residing on the Binance Smart Chain, designed to infuse the crypto space with laughter and community spirit. Centered around the beloved grey cat, Toby, TobyCoin aims to create a playful and engaging ecosystem for crypto enthusiasts.

Our Mission:

At TobyCoin, our mission is to bring joy through our beloved grey cat, Toby. We aim to support Toby's well-being and donate a portion of tokens to animal shelters. Together, we strive for prosperity, creating a positive impact while aiming for collective financial success. Join us on this rewarding journey with TobyCoin!

Key Features

Meme Magic:

TobyCoin is the catalyst for a collection of delightful memes featuring Toby, creating a lighthearted atmosphere within the community.

Community-Driven:

The strength of TobyCoin lies in its vibrant community. Community members actively shape the project through governance and participation.

Limited Supply:

With a fixed total supply of 369 billions TOBY tokens, scarcity adds exclusivity to TobyCoin.
